

ICNP 2016

The 9th International Conference on Nanophotonics

21-25 March 2016

Academia Sinica, Taipei, Taiwan

CALL FOR PAPERS

Important Dates

Submission Deadline:

25 January 2016, 23:59 PM GMT +8

Acceptance Notification:

31 January 2016

Early-Bird Registration Deadline:

7 February 2016

Proceeding will be submitted to special issue in Optics Express (publication charges) and Journal of Optics (No publication charges)

Conference Topics

Microscopy and Nanoscopy
Metamaterials and Plasmonics
Photonic Crystals and Nanofibers
Photonic Crystals and Lasers
Self Assembly and Nanochemistry
Nanobiophotonics: Imaging
Nanobiophotonics: Sensing
Nanobiophotonics: Light Activated Therapy
Nanobiophotonics: Nanomedicine
Nano-optoelectronics
Nanofabrication
Nanocharacterization
Green Photonics and Photovoltaic
Nanolasers, Nanodevices and Integration
Modeling and Simulation
Quantum Optics and Computing
Silicon Photonics
Nonlinear Optics

About the conference

This conference is a unique event where the latest advances in optics and photonics both in nano- and micro-scale will be reported and discussed. This conference primarily aims to explore novel ideas in nanophotonic science and technology that might enable technological breakthroughs in high impact areas such as biomedical and life sciences; information processing; communications; energy harvesting and storage; environment and conservation. The comprehensive coverage of conference themes, including microscopy and nanoscopy, silicon photonics; quantum optics; metamaterials; plasmonics; transformation optics; materials for micro- and nano-photonics; nanofabrication; and photonic devices, ensures researchers in this exciting field always have the opportunity to report their work and exchange information with fellow co-workers.

Plenary Speakers

Eric Betzig

Howard Hughes Medical Institute, USA

2014 NOBEL LAUREATE

Naomi J. Halas

Rice University, USA

Xiang Zhang

UC Berkeley, USA

Chennupati Jagadish

Australian National University, Australia

Vladimir Shalaev

Purdue University, USA

Nikolay Zheludev

University of Southampton, UK

Satoshi Kawata

Osaka University, Japan

Lihong Wang

Washington University in St. Louis, USA (In transition to Caltech)

Harald Giessen

University of Stuttgart, Germany
